

# Job advertisement

## We are looking for a student/scientific assistant (m/f/d)

at the earliest possible date at the Cologne location, in the Semantic Technologies team in the research project NFDI4DataScience, temporary for the duration of 6 months part-time (10-20 hours/week) with the option of extension.

### Your future responsibilities:

- ▶ Design and conduct user experience and usability studies for existing and in-development websites
- ▶ Design and development of proof-of-concept software solutions aligned with the NFDI4DataScience project and aimed at end users
- ▶ Design and development of front-end prototypes for the navigation of information search and recommendation systems
- ▶ Active participation in project, team and institutional meetings

### Your professional qualifications and personal skills:

- ▶ You should be enrolled in a Master's or Bachelor's degree programme in computer science, information science, media informatics or similar fields
- ▶ Enjoy contributing ideas and be able to adapt to changing requirements
- ▶ Good communication and teamwork skills
- ▶ Good knowledge of English
- ▶ Good knowledge of user experience
- ▶ Python knowledge would be an advantage

### We offer:

- ▶ Varied and challenging management and coordination tasks
- ▶ Collaboration in a committed and international team
- ▶ Extensive training and further education opportunities
- ▶ Very flexible working hours and the option of mobile working work
- ▶ Online language learning opportunities
- ▶ Additional pension scheme
- ▶ Use of the cafeteria/canteen
- ▶ 20 days holiday with a 5-day week
- ▶ A performance-related salary based on your degree

**ZB MED - Information Centre for Life Sciences** is the national infrastructure and research centre for life science data and information. Our services support research for people and the environment: from medicine to biodiversity to environmental protection.

**Information Hub for Life Sciences**  
We provide the infrastructures for literature and information supply, data management and the handling of large amounts of data.

**Data Sciences for Life Sciences**  
We conduct applied and transdisciplinary research. We enable data analysis and generate data potential. As a partner to research, we create new knowledge that is oriented to the needs of the community.

<https://www.zbmed.de/ueber-uns/presse/pressemitteilungen/artikel/charta-der-vielfalt/>

Severely disabled people are given preferential treatment if they are  
considered. Applications from women are expressly encouraged. In  
accordance with the Equal Opportunities Act of North Rhine-Westphalia  
(Landesgleichstellungsgesetz NRW), women are given preferential  
consideration in cases of equal aptitude, ability and professional  
performance, unless reasons relating to the person of a competitor prevail.  
Equal opportunities are an integral part of ZB MED's personnel and  
organisational development, for which the information centre has already  
been repeatedly awarded the TOTAL E-QUALITY award.
